MACGREGOR LAIRD. JOSEPH LOCKE, M.P., cxxviii.—Captain ALEXANDER MACONOCHE, R.N., cxxix.; his services as Secretary to the Society. JOHN HENRY MANDEVILLE, cxxx.—J. W. PARKER. General Sir CHARLES W. PASLEY, K.C.B. Sir GEORGE SIMPSON, cxxxi.; his services to the cause of Arctic Exploration. MATTHEW UZIELLI, cxxxii.—JOHN ASHLEY WARRE, M.P., cxxxiii.

Admiralty Surveys. *England*, cxxxiv.—Cox' and Davis' work at Portsmouth Bar; Sidney's and Richards' work in the Channel Islands; Stokes' and Usborne's work on the coast of Devon; Williams' and Wells' work in the Scilly Isles, cxxxv.—Aldridge's work in the Bristol Channel; Calver's work on the coast of Lancashire. *Scotland*, Calver's survey in the Clyde; Bedford's work in Argyleshire; Jeffery's work in Inverness-shire, cxxxvi.—Otter's work in the Hebrides. *Ireland*, Hoskyn's work on the East Coast; Edye's soundings off the South-west and South Coasts. *Iceland*, cxxxvii.—Sir Leopold M'Clintock's deep-sea soundings. *Mediterranean*, cxxxviii.—Expedition to the Cedars of Lebanon, &c. *Africa*, cxli. *Asia*, Collingwood's survey of part of the Shat el Arab and of the city of Basrah. *China*, cxlii., great activity owing to the war. *Australia*, cxliii. *British Columbia*, cxliv. *Newfoundland*. *Bay of Fundy*. *West Indies*, cxlv. *Variation*, Evans's Investigations. Retirement of Mr. Michael Walker, Assistant Hydrographer, cxlvi.

Ordnance Survey. Progress in the North of England and in Scotland delayed by numerous detailed surveys in the South of England; Plans of Northumberland and Cumberland in course of publication; great trigonometrical operations of the survey closed, cxlvii.—Map of Montenegro, cxlviii.—Lithographed sketches of actions fought in China.

Geological Survey of Britain, cxlix.

Progress in Meteorology, cli.—Steps taken by Government to utilise this branch of knowledge; Storm signals; Atmoscope, cliv.—Barometers for travellers, clv.

Recent Geographical Publications in Europe, clvi.—*Britain*. Johnston's Maps; Mackay's 'Geological Manual'; Norton Shaw's edition of Col. Jackson's 'What to Observe; or the Traveller's Remembrancer,' clvii.—*Germany*. Success of Petermann's 'Mittheilungen'; Scherzer's description of the voyage of the *Novara*. *Switzerland*, clviii.—Great Federal Map approaching completion; Geological Map; Lavozzari's Works, clix.—Thury's Paper on Glaciers. *Russia*. Expedition to the Amur, clx.—Schmidt's Visit to the Island of Sahalin; Map of Eastern Siberia; Veniukof's Expedition to the (Lake of) Issyk-kul; Kuléwein's Account of Ignatief's Mission to Khiva and Bokhara; Scientific Expedition in the Low Valleys of the Kuma and Manych and Kalmuck steppe, clxii.—Surveying Expedition in the Caspian, clxiii.—Struve's Proposal to effect a vast measurement of a meridional arc passing by the 52° latitude, to extend from Valentia, in Ireland, to the fortress of Orsk, on the confines of the Government of Orenburg, clxiv.—Activity of Imperial Geographical Society of Russia.

Hindustan, Siam, Burmah, China, and Japan, clxv.—Scientific career of Sir Andrew Scott Waugh; Capt. Claude Clerk's narrative of a journey across the Eastern Frontier of Persia to Afghanistan; Capt. Sprye's and Dr. McCosh's papers on the countries between the British Frontiers of Bengal and Pegu and the western confines of China, clxvi.—Sir R. Schomburgk's journeys in Siam; Mr. Spencer St. John's and Mr. A. R. Wallace's papers on the Asiatic Archipelago; Surveys in China; Expeditions into Chinese Tartary and the northern and western provinces of China, clxvii.—Importance of our trade with China; Mr. Rutherford Alcock's journey into the interior of the main island of Japan; Paper by Mr. Pemberton Hodgson, Consul at Hakodadi; Trade with Japan promising.

Arctic Regions, clxviii.—Dr. Hayes' expedition in the *United States*; Renewed search for the *Erebus* and *Terror*; Hall's expedition in the *George Henry*; Capt. Parker Snow fitting out the *Intrepid*; Capt. Irminger's paper on the currents and ice-drifts on the coast of Iceland; Sir John Richardson's account of the Polar Regions, clxix.

British North America. Map of country from Lake Superior to the Pacific coast at Vancouver Island, to illustrate reports of Palliser's Expedition; large areas with good soil in British possessions; winter not more severe than in Canada, clxx.—Snow not excessively deep; finer kinds of timber absent; Saskatchewan country suitable for settler deficient in capital; new routes through American territory; practicability of railway route to Pacific coast, clxxi.—Large coal deposits in Japan and Formosa, clxxii.

South America. Dr. V. Martin de Moussy's 'Description Géographique et Statistique de la Confédération Argentine'; M. Demersay's 'Histoire Physique, Économique et Politique du Paraguay, et des Établissements des Jésuites,' clxxiii.—N. Bonpland's voluminous notes on his travels in South America claimed by his heirs; his mineral and natural history collections offered to the French Government.

Australia. March of discovery most remarkable; Stuart's travels; data ascertained by him, clxxiv.; Capt. Stokes' surveys and Mr. F. Gregory's expedition have proved that the eastern inlets of Cambridge Gulf and the mouth of the northern Victoria River are well adapted for a colony, clxxv.; North or Tropical Australia destined to be occupied; great expedition, with camels, proceeding from Victoria across the interior, clxxvi.—Queensland settlers pushing on towards the Gulf of Carpentaria, and into interior on the west;

speculations on probable sterile and saline condition of large portion of interior; well-watered region to the west of Lake Torrens, clxxvii.—Future communications of Australian Colonies.

Africa. No fresh explorations accomplished; Livingstone's description and map of Mosioatunya Cataract (Victoria Falls); his start to explore Rufuma River, in company with Bishop Mackenzie, clxxviii.—Mortality among missionaries to the Makololo; failure of Roscher's and Von der Decken's expeditions to the Niassa Lake; latter now gone to a more northern district of Eastern Africa; Capt. Speke arrived at high plateau on his journey to the sources of the White Nile; sufficient funds subscribed to enable Mr. Consul Petherick to proceed to Gondokoro to await his appearance, clxxix.—Altitude of Khartum settled by Dr. Peney; Miani's travels beyond Gondokoro; Heuglin's journey to Wadai. *West Africa*: Death of Seymour, clxxx.—Robert Campbell's pamphlet on Lagos, Abeokuta, &c., and Alex. Crummell's article on the productions and capabilities of the same region. *Du Chaillu*: Account of the results of his explorations from the west coast north and south of the Equator.

Conclusion, clxxxiv.—Large increase in the number of Fellows of the Society, clxxxv.

Postscript, clxxxvi.—Latest news of the expedition of Captains Speke and Grant.

ADDRESS FOR 1862.

By the Lord ASHBURTON, President Vol. XXXII. p. civ.

Obituary Notices. H.R.H. THE PRINCE CONSORT, Vice-Patron; his services to all branches of science. THOMAS WILLIAM ATKINSON, the Siberian traveller, cv.—JAMES BRANT, C.E., cvi.—Sir WILLIAM CUBITT, C.E. Rear-Admiral the Hon. J. F. DE ROS, cvii.—Vice-Admiral the Hon. Sir RICHARD SAUNDERS DUNDAS, K.C.B. HUGH, Earl FORTESCUE, K.G., cviii.—Captain WALTER COLQUHOUN GRANT; his map and papers on Sikkim. Rev. EDWARD CRAVEN HAWTREY, D.D., Provost of Eton. ROBERT WILLIAM HAY, cix.—Vice-Admiral Sir THOMAS HERBERT, K.C.B. CHARLES EDWARD LEFROY. JAMES ORMISTON McWILLIAM; his services to Captain Trotter's Niger Expedition. SAMUEL LEIGH SOTHEBY, cx.—Rev. Dr. JOSEPH WOLFF; his travels in Mesopotamia, Persia, Bokhara, &c.

Admiralty Surveys, cxi.—*England*, Coast Survey of British Isles nearly complete. *Scotland*, cxii.—*Ireland*, General chart of west coast. *Mediterranean*, Captain Spratt's work between Malta and Alexandria; determination of meridian distance between them by electric telegraph, cxiii.; Commander Mansell's work on the coast of Syria; charts published. *Africa*, exploration of River Volta on the west coast; Skede's work in the Cape Colony; his sketch of the five mouths of the Zambesi; establishment of three lights in the Red Sea, cxiv.—*Asia*, Constable and Stiffe's chart of Persian Gulf, published and to be exhibited at the International Exhibition; Whish's plan of Bahrein; Williams' work on the Malabar coast, and Ward's on the south coast of Arabia; work still to be done. *China and Japan*, cxv.—surveys of Upper Yang-tsze Kiang and on the south coast of Japan; publications of results of labours in former years. *Australia*, cxvi.—coast surveys; new passage through Torres Strait; completion of general chart of Northern Australia and adjacent seas and islands, cxvii.—*Vancouver Island*, plans of Esquimaux and Victoria harbours, &c. *Newfoundland*, re-examination of south coast, and publication of plans. *Bay of Fundy*, cxviii.—survey completed. *West Indies*, survey of Grenadines group completed. *Variation of the Compass*, manual resulting from Messrs. F. J. Evans' and A. Smith's investigations, on the eve of publication.

Ordnance Survey, cxix.—publication of the 'Trigonometrical Survey of Great Britain' completed; triangulations of England and Belgium connected; connection of Belgian, Prussian, and Russian triangulations, cxx.—determination of differences of longitude by electric telegraph; engraving of map of Ireland; cadastral survey, cxxi.—publication of maps on the twenty-five-inch and six-inch scales; "marginal lines" for the sheets of a map of the whole world on two-inch scale.

Meteorology, cxxii.—increased interest; basis and nature of forecasts and occasional warnings, cxxiii.—from thirty to forty weather telegrams received daily by Board of Trade, cxxxi.—publication of forecasts; outline maps, with movable wind-markers and cyclone glasses or horns, useful in forecasting weather, cxxxv.—daily weather reports, cxxxvii.

Surveys of Spain, cxxxviii.—progress in the triangulations; portion of Tagus and Gallo mapped, cxxxix.—work of geological department; publications of Hydrographic and War Departments and Statistical Board; essays on the ancient geography of Spain, and memoir on the site of the city of Munda, cxl.—Coello's provincial atlas and map of Spain.

Russia, Activity of Imperial Geographical Society; exploring expedition in Eastern Siberia; three fresh expeditions proposed; shallowing of the Sea of Azof, cxli.—boundary line between Russia and China; collection of statistico-ethnographical data in the interior of Russia, cxlii.—cartographical labours of the society; Halmersen's geological map of Russia; 'Journal' of Society contains several articles of high geographical interest, especially in regard to Central Asia; Captain Valikhanof's account of his journey to Kashgar, cxliii.

Asia, M. de Khanikof's map of the Aderbeijan, in Persia.

China, cxliv.—Advantages from Lord Elgin's treaty; in one year twelve provinces visited, as well as Manchu Tartary, cxlv.—ascent of Yang-tsze-kiang by Sarel, Blakiston, Barton, and Scheresheffsky; Mr. Consul Morrison's journey along the Grand Canal; Richards' and Slossin's journey through Pei-chih-li and Shan-si, cxlvi.—journey of Dickson, Thorburn, Beach, and Bonney from Canton to Hankow; Baker in Chehkiang and Nganhwuy; Legge's ascent of the east river in the Kwangtung province, cxlvii.—Irwin's journey up the west river; opening of Formosa to trade.

Australia, M'Douall Stuart's work, cxlviii.—Burke's and Wills' expedition; Gregory's explorations in North-Western Australia; report of commissioners appointed to inquire into death of Burke and Wills, cxlix.—Sir H. Barkly's despatches, cl.—searching party of McKinlay and Hodgkinson, cli.—discovery of relics of four unknown white men; F. T. Gregory's surveys and explorations from the west, clii.—his complete success, cliv.—Walker's and Landsborough's expeditions in search of Burke's party; geographical results, clv.—Mr. Selwyn's geological maps of Victoria, and Professor McCay's palæontological illustrations thereof; Rev. W. B. Clarke's endeavours to develop the geological structure of New South Wales; opening of coal-fields in Tasmania; dysodile extracted, clvi.—Dr. Hector's labours in New Zealand.

Africa, Livingstone's unsuccessful attempt to ascend the Rovuma River; his establishment of the University Mission near the banks of the Shiré, clvii.—news received from native source that Speke had extricated himself from the desert of Ugogo, and was on his way to Unyanyembe; lamentable condition of White Nile; hostility of natives aroused; illness and return of Lejean; death of Dr. Peney; connection of his explorations with Petherick's; determination of altitude of Kilima-ndjaro by Von der Decken and Thornton, clviii.—Colonel

Rigby's report on Zanzibar dominions; Captain Burton's work on West Coast, and ascent of Cameroon Mountain; the French on the Gaboon; explorations in Senegambia and the North-Western Sahara; Boo Moghddad's journey from the Senegal to the coast of Morocco; Duveyrier's return from the Sahara; Heuglin in Abyssinia, clix.—Barth's vocabularies of Central African tribes; publication of maps; Livingstone's navigation of west coast of the Nyassa, *note*; death of Bishop Mackenzie.

Our own Labours.—*Europe*, clx.—Communications on the course of the Lower Danube by Captain Sherard Osborn, Captain Spratt, and Major Stokes; Professor Paul Chaix' account of surveys for great federal map of Switzerland; Professor Holt's account of surveys in Norway since 1779; Baron de Bode's account of the country of the Lesghi tribes of Hilly Daghestan, Caucasus; Captain D. Cameron's dissertation on the Caucasus, clxi.—Allen Young's and Rae's visits to Iceland. *Asia*, Navigation and survey of Upper Yang-tsze-kiang; Blackney's observations; ascent of Si-Kiang; Captain Smythe's expedition prevented from proceeding into Chinese Tartary, clxii.—Oliver's notes on country west of Canton; Mouhot in Cambodia; O'Riley's tour in Shan States; King's and Campbell's notes on Siam; Sir R. Schomburgk's explorations in Siam; Mr. Rutherford Alcock's papers on Japan, clxiii.—Hodgson's journeys in the Island of Yesso; importance of the River Amur; Semenof's journey to the Tien Shan, clxiv.—papers on the Valley of Kashmir by Purdon and Austen; Great Trigonometrical Survey of India; Captain T. G. Montgomerie's services to science, and geography in particular; Mr. A. R. Wallace's labours in New Guinea; Clerk's itineraries in Persia, clxv.—Mouat's account of the Andaman Islands; Sir Henry Rawlinson's proposal to connect England and India by electric telegraph by way of Constantinople and the Euphrates. *Africa*, Progress made; (Mount) Kilima-ndjaro proved to be an isolated volcanic cone, clxvi.—Livingstone's work on the Zambesi, Shiré, and Lake Shirwa, clxvii.—Captain Burton's labours in Western Tropical Africa; Dr. Baikie's prospects on the Niger and Chadda Rivers, clxviii. *North America*, Explorations in British Columbia. *Central America*, clxix.—proposed transit-route across the Isthmus through the Lake of Nicaragua. *South America*, Markham's labours in Peru; Spruce's remarks on the Quitonian Andes; Jamieson's excursion to Mount Cayambe on the Equator. *Australia*, Important progress made; remarkable increase of colonisation; accounts of the Fiji Islands, clxx. *Ocean Soundings* by M'Clintock; curious discoveries, clxxi.—water-climate of high northern latitudes and tropics shown to be similar; Heathcote's observations on currents in the Bay of Bengal; Maury on the Southern Ocean and the Antarctic Pole. *Conclusion*, clxxii.—Retirement of Lord Ashburton and election of Sir R. I. Murchison to the Presidency; importance of the Society's work.

ADDRESS FOR 1863.

By Sir RODERICK IMPEY MURCHISON, K.C.B., President .. Vol. XXXIII. p. cxiii. *Obituary Notices*. M. JOMARD, cxiv.—his great services to geography; Dr. HAMEL, cxvi.—the Marquis of LANSDOWNE; the Rt. Hon. Sir GEORGE CORNEWALL LEWIS, cxviii.—Sir BENJAMIN BRODIE, Bart., cxx.—the Marquis of BREADALBANE, cxxi.—the Earl of GIFFORD, cxxii.—the Earl of ELLESMERE, cxxiii.—LUCAS BARRETT; his services to geology, cxxiv.—JAMES ROBERT GOWEN; WILLIAM JOHN BURCHELL; Mr. CHAMBERS, of Adelaide, patron and employer of M'Douall Stuart; EDMUND GABRIEL, cxxv.—his kindness to Dr. Livingstone; JAMES WALKER, F.R.S., cxxvi.—ANTHONY ST. LEGER; WALTER EWER.

Admiralty Surveys, cxxvii.—*The British Isles. England.* Continuation of Coast surveys. *Scotland*, cxxviii.—Otter's survey of South Uist, Canna, and Rum; Thomas' surveys and soundings off Benbeenla and Harris; Edye's survey of Barra, Muldoanich, Flodday, Pabbay, &c.; Bedford's work. *Ireland.* Hoskyn's and Davis' deep-sea soundings for electric cable to America. *Mediterranean*, cxxix.—Capt. Spratt's survey of the Maltese Islands; Mansell's work on the coast of Syria. *Africa.* Skead's survey of Mussel Bay, Cape Colony. *Asia.* Chitty's soundings on the Mekran coast of Persia; Persian Gulf; publication of Constable's and Stiffe's plan of Bushire. *China and Japan.* Surveys by H.M. ships *Rifleman* and *Swallow*; *Actæon* and *Dove* off Japanese coast, cxxx.—valuable MS. survey of the empire, procured from the Government through the instrumentality of Sir Rutherford Alcock, K.C.B.; Nagasaki harbour and adjacent coast, cxxxi.—Korea; coast of Shantung; Mr. Arthur Adams' collections and observations have advanced the question of the geographical distribution of species, cxxxii.—*Australia.* Inlet of Port Philip; Spencer's Gulf; Queensland; Tasmania. *Vancouver Island.* Completion of survey by Capt. G. H. Richards in H.M.S. *Hecate*. *Newfoundland*, cxxxiii.—Progress of Capt. J. Orlebar's survey. *Nova Scotia and Bay of Fundy.* *West Indies*; labours of the Hydrographic Office, cxxxiv.

Ordnance Survey. Progress. Report of Committee of House of Commons favourable to extension of cadastral survey; publication of account of extension of triangulation through France into Belgium, cxxxv.—'Great Domesday Book,' copied by photo-zincography; great advance in that art.

Geological Survey of the United Kingdom. Progress contrasts favourably with that of previous year.

Recent British Publications, cxxxvii.—Mr. David Page's 'Introductory Textbook of Physical Geography'; Prof. Ansted's essay on 'The Correlation of the Natural History Sciences,' cxxxviii.

Geographical Publications in Germany. List of original papers in Petermann's 'Mittheilungen' for 1862–3, cxxxix.—Petermann's maps, cxl.—Hochstetter's 'Neu Seeland'; progress of Scherzer's account of *Novara* expedition, cxli.

Greenland. Former Conditions of Northern Europe.

Asia. Central Asia, cxlvii.—Khanikof's explorations, and his account of them; valuable additions to knowledge of Western Persia, expected from publication of Lieut. Glascott's labours, cli.—Major Goldsmid's work. *Proposed New Route to British India*, clii.—Lord William Hay's contemplated journey by Nijni Novgorod, Ekaterinburg, Omsk, Semipalatinsk, and Kopal to Issyk-kul, and thence to Kashgar, Leh, and Kungur, in Cashmere. *Indian Navy*, cliii.—ceased to exist on April 30, 1863; great services to geography. *Telegraphic Communication by Land and by Sea.* Direction of line to India placed in Col. Patrick Stewart's hands, cliv.—progress of the work; C. M. Grant's endeavours to establish telegraphic communication with Peking, *viâ* Kiachta, and to procure extension of Siberian lines eastwards, clv.—Gisborne's proposed line from Calcutta, *viâ* Burmah, to Singapore, and thence to Australia. *North Atlantic Sea-Bed*, clvi.—Dr. Wallich's proposed examination approved by the Council; execution deferred, clvii.—*Japan.* Sir Rutherford Alcock's travels; his account affords much valuable information; Mr. L. Oliphant's visit to the Island of Tsusima, clviii.—much still to be done.

Mexico. M. Henri de Saussure's work on the physical structure and outline. *South America. Peru.* Raimondi's account of his explorations; Soldan's map of Peru;

Mr. C. R. Markham's explorations on the Purús. *Brazil*. Mr. H. W. Bates' 'The Naturalist on the Amazons'; his geographical work on the main river and the Tapajos, clx.

Australia. Remarkable progress; great results achieved by journeys of M'Douall Stuart, Landsborough, McKinlay, and Walker; sketch of their work; enterprise of colonists, clxix.—relative altitudes of regions explored not determined by recent explorers, clxx.

New Zealand and its Gold. Stimulus given by discovery of gold; remarks on the auriferous product of Otago.

Polynesia, clxii.—Dr. Seemann's work on the Fiji Islands.

Africa. Fears respecting fate of East African expedition; arrival of Speke and Grant at Khartum, clxxiii.; Speke's telegram, "The Nile is settled"; met by Petherick at Gondokoro on Feb. 20th; Baker's expedition to relieve Speke and Grant; his journey in search of Lake Luta Nzigé, a feeder of the White Nile, clxxiv.—great results from Speke's expedition; Victoria Nyanza the reservoir of the White Nile; sketch of Speke's and Grant's work from October 1, 1860, clxxv.—Kitangulé River the chief feeder of the Nyanza; kindness of people of Uganda, clxxvi.—delays in Unyoro, clxxvii.—arrival at De Bono's ivory station in lat. $3^{\circ} 10' 37''$; kindly received by Turkish ivory traders; tree marking the Venetian Miani's furthest in lat. $3^{\circ} 35'$; meeting with Baker at Gondokoro on February 15th; promptness of Home Authorities to succour the party, clxxix.—Society's great obligations to Speke; his astronomical observations; their calculation, &c., undertaken by the Astronomer Royal, clxxx.—Speke's history of the Wahuma; causes of the rise of the Nile, clxxxi.—verification of Sir R. Murchison's theory as to the nature of interior of Africa; generalisations established by Speke and Grant, independently of sources of Nile, clxxxii.—information gleaned from native sources by old geographers, clxxxiii.—East African explorations, clxxxv.—expeditions on the west coast, clxxxvii.—letter from Baron von der Decken, clxxxviii. (note)—publication of maps by Arrow-smith and Ravenstein; Petermann's large scale map; Barth's vocabularies nearly completed; Livingstone's second expedition to the Rovuma River, clxxxix.—death of his wife; unsuitability of the banks of the Zambesi and Shiré for mission stations; Consulate abolished, cxc.—Livingstone's intention to reascend the Shiré (note).

Conclusion. Changes among the officers of the Society; retirement of Dr. Norton Shaw, cxc.—his services; reorganisation of the administrative officers; nomination of Mr. W. Spottiswoode and Mr. Clements R. Markham as Secretaries.

ADDRESS FOR 1864.

By Sir RODERICK I. MURCHISON, K.C.B., President .. Vol. XXXIV. p. cix.

Further changes in the Staff, cx.—Mr. Laurence Oliphant appointed Secretary, in the place of Mr. W. Spottiswoode, and Mr. H. W. Bates, Assistant Secretary and Editor of 'Transactions.'

Obituary Notices. Lord ASHBURTON, late President of the Society; Rear-Admiral JOHN WASHINGTON, C.B., Hydrographer of the Admiralty and formerly Secretary of the Society, cxii.—his services in both capacities. Maj.-General JOSEPH ELLISON PORTLOCK, R.E., cxv.—his services to the Ordnance Survey. General ALBERT DE LA MARMORA, cxviii.—the Earl of ELGIN and KINCARDINE, cxx.—his special mission to China and Japan; appointed Governor-General of India, cxxi.—Admiral Sir W. HALL GAGE, G.C.B.; Rear-Admiral OCTAVIUS VERNON

HARCOURT, cxxii.—Rear-Admiral FOWLER; Capt. WILLIAM ALLEN, R.N.; Capt. W. A. WILLIS, R.N., cxxiii.—RICHARD THORNTON; his services to geography and geology in Africa; E. OSBORNE SMITH, cxxvi.—BERIAH BOTFIELD, M.P.; WILLIAM CUBITT, M.P.; JOHN WATKINS BRETT, cxxvii.—his services to submarine telegraphy; C. G. FULLER; ARTHUR PAGET.

British Geography, cxxviii.

Admiralty Surveys. Calver's Survey of the estuary of the Thames; Otter's Survey of Western Hebrides completed, cxxix.—*Mediterranean*. Progress of Capt. Spratt's work; *Newfoundland*, cxxx.—Orlebar's Survey of east coast; *Nova Scotia*, Shortland's labours nearly finished; *West Indies*, examination of Grenada commenced; *Bermuda*, consequences of Survey; *Australia*, progress in delineating coast-line, cxxxi.—*China and Japan*, cxxxii.—important surveys. Publications of Hydrographic Office.

Ordnance Survey, cxxxiii.—Map of England and Wales practically finished; progress in Scotland; publication of principal triangulations in the United Kingdom, cxxxiv.—Domesday Book, cxxxv.

Geological Survey of the United Kingdom. Work to be carried on in the Northern counties.

New Publications. Articles in Petermann's 'Mittheilungen' noticed, cxxxvi.—Keith Johnston's Index Geographicus; Phillip's New Imperial Library Atlas; Dr. Muir's forthcoming 'System of Universal Geography'; Mouhot's Travels in Siam and Cambodia; Simpson's delineations of the natural features of Upper India, cxxxvii.—Mackay's 'Elements of Modern Geography.'

Foreign Cartography. Topographical Survey of Denmark; their maps specially commended; detailed map of the course of the Weser, cxxxviii.—Swiss maps.

Recent Progress of Geography in Russia. Imperial Geographical Society of St. Petersburg; its important work; explorations of Eastern Siberia and borders of Chinese Empire throw new light on their physical geography and natural history, cxxxix.—Western Siberia, cxl.—cartographical work; telegraph line completed to Irkutsk, 5700 miles from St. Petersburg, cxlii.—Schwartz's map of Amur river-system; Schebunin's map of Sakhalin; geological formation of region beyond the Sea of Baikal, cxliii.—Radde's zoological work in Eastern Siberia; 'La Contrée de l'Amour,' by M. Maximowicz, cxliv.—peculiarity in formation of Amur basin; Struve's explorations of the Black Irtysh, cxlv.—discovery of coal in Karatau mountains; Baer's and Radde's labours on the Sea of Azof.

Arabia, cxlvi.—Palgrave's narrative of his journeys; rivers in Arabia lost in sands.

Hindustan, cxlvii.—Report of Trigonometrical Survey; Lane's account of portion of Independent Tipperah and Capt. Basevi's Reconnaissance of a portion of Jyepore, in Gondwana; Major Showers' letters on terminus of Madras Railway on Malabar coast, and the proposed port of Sedashegur.

Formosa, cxlviii.—Mr. Vice-Consul Swinhoe's account of its geography, ethnology, and natural history.

Malay Archipelago. Mr. A. R. Wallace's labours.

Australasia, cxlix.—North Australian Settlement Company, cl.—colonisation schemes; surveys, cli.

New Zealand. Important papers communicated by Dr. Hector, Mr. M'Kerrow, and Dr. Haast; Journey of the Messrs. Walker and Mr. M'Farlane from the mouth of the Taramakau to that of the Wanganui, a region on the west coast hitherto found inaccessible, cliv.

America.

British Columbia and Vancouver Island. Lieut. Palmer's account of the geography and chief capabilities of British Columbia; gold mines, clv.—Capt. Richards' surveys of the coasts of Vancouver Island, clvi.—Dr. Forbes' description of its physical and political geography, geology, hydrography, &c.

South America. Survey through upper part of Argentine Republic for projected railway, clvii.—Consul Hutchinson's journey; Dr. Burmeister's map; Señor Cox's journey and its results; Sir Woodbine Parish's opinion, clviii.—M. Poucel's paper on the province of Catamarca; Admiral Sullivan's letter on the Falkland Islands (note); Hinchliff's tour in Southern Brazil (cf. his work 'South American Sketches'), clix.—peopling of the fertile plains of the River Plata; Signor Negri's memoir; Mr. R. Spruce's geographical work in the valley of the Amazons and in the Andes of Ecuador; M. Belmar's 'Voyage aux Provinces Brésiennes de l'Amazonie,' clx.

Glaciers.

Glaciers of the Himalaya Mountains and New Zealand compared with those of Europe. On the Powers of Glaciers in modifying the Surface of the Earth, and on the Agency of Floating Icebergs, clx. to clxxx.

Africa, clxxx.

North-Western Africa. Senegal and its Dependencies. M. Malte Brun's accounts of the progress of geographical research; 'Annuaire de Sénégal' for 1864 contains a résumé of explorations of the interior in 1859–61.

Northern Abyssinia, clxxxii.—Researches of Von Heuglin, Kinzelbach, Munzinger, and Steudner; excellent map published in Petermann's 'Mittheilungen.'

The Niger, clxxxiii.—Dr. Baikie's labours.

The Gaboon Country. M. du Chaillu's new expedition; progress delayed by loss of instruments; articles sent home prove truth of some of his descriptions.

South Africa. Explorations of the Baron C. von der Decken. The unchanged terrestrial condition of the ancient Surface of the Interior of South Africa. Project of rendering the White Nile the highway of intercourse between Central Africa and Europe. Petherick's Journal. Expedition of Dutch ladies, with Baron von Heuglin, on western affluents of White Nile, exc. (and note on p. exci.)—no tidings received of Mr. Samuel Baker for a year, exci.

Conclusion.

Postscript, excii.—Letters received from Dr. Livingstone, giving an account of his journey on the west bank of the Shiré and for nearly 700 miles to the N.N.W. of it.

ADDRESS FOR 1865.

By SIR RODERICK I. MURCHISON, K.C.B., President .. Vol. XXXV. p. cviii.

Obituary Notices, cix.—Captain JOHN HANNING SPEKE; his explorations in the Himalayas and Tibet, cx.—in Africa, cxi.—great results achieved. Duke of NORTHUMBERLAND, cxii. Dr. HUGH FALCONER, cxv. Duke of NEWCASTLE, cxviii. Professor F. G. W. STRUVE, cxix.—his measurement of the great arc of the Meridian. Baron GEORGE DE MEYENDORF, cxx.—his travels in Asia. Hon. EDWARD EVERETT. Sir ROBERT HERMANN SCHOMBURGK, cxxi.—his services as an explorer; received a gold medal in 1840, cxxii. Dr. BAIKIE; his services on the Niger, cxxiii. Mr. HUDSON GURNEY, cxxiv. Rear-Admiral the Hon. HENRY ANTHONY MURRAY. Mr. JOSHUA BATES, cxxv. Archdeacon BURNBY,

cxxvi. Mr. SAMUEL CARTWRIGHT. BENJAMIN SILLIMAN. Mr. THOMAS YOUNG, cxxvii. JOHN GEORGE PHILLIMORE. HENRY CHRISTIE, cxxvii. Admiral Sir JAMES STIRLING. Mr. GEORGE DODD. Vice-Admiral ROBERT FITZROY, C.B.; his services to geography, geology, natural history, and meteorology, cxxix.

Admiralty Surveys, cxxxii.—progress at home and abroad. *English Coast*, cxxxiii. *Foreign Surveys*, cxxxiv.—work in the Mediterranean. *Newfoundland*, Captain Orlebar succeeded by Mr. J. H. Kerr, R.N. *Nova Scotia*, cxxxv.—approaching completion of coast survey. *West Indies*. *British Columbia*. *Australia*, four distinct surveys being carried on. *South Africa*, cxxxvi. *China and Japan*, surveys between Singapore and Hongkong; on the northern coasts of China; entrance of the Yang-tze-kiang; publication of charts, &c., by the Hydrographic Office.

Review of the Progress of Geographical Knowledge since the Foundation of the Society. The condition of geographical science in 1830, cxxxvii.—great progress in Australia, cxxxviii.—Mr. Allan Cunningham's explorations in 1829, cxxxix.—Flinders, cxi.—Captain Sturt; Eyre; Lieutenants Grey and Lushington, cxli.—Sir Thomas Mitchell; Count Strzelecki; discovery of gold by him, cxlii.—Dr. Ludwig Leichhardt; Augustus Gregory, cxliii.—M'Douall Stuart's grand discoveries; Burke and Wills; Landsborough, M'Kinlay, Wilkes, cxlvii.—Arrowsmith's maps.

Asia, cxlviii.—great increase in our knowledge of the Himalayas, Nepaul, Tibet, Cashmere, Cabul, and Bukhara; British Burmah; progress made with regard to Siam, Laos, Cambodia, Annam, Tonquin, cxlix.—important geographical work done in China; some progress in the Malay Peninsula, Sumatra, and Borneo, cli.

Russia and her Boundaries. Great advances made by Russian geographers and travellers; M. Radde's work; maps, cliii.—glacier of Devdorak, cliv.—ascent of the River Sungari, a tributary of the Amur, clv.

South America, clvi.—great advance since 1830; coast surveys by King and Fitz-Roy; Sir Woodbine Parish and Mr. Pentland, clvii.—Sir R. Schomburgk's explorations in British Guiana; Smyth, Wallace, Spruce, and Bates, clviii.—General Miller, Markham, Colonel Lloyd, Dr. Jameson, and David Forbes; Wheelwright, Mansfield, Captain Sullivan, Hinchliff, Colonel Hutchinson, Coghlan, and Captain Parish, clix.—Admiral Kellett's surveys on the west coast; valuable work done by Frenchmen, Italians, Germans, and Americans, clx.—labours of South American geographers.

Africa. Engagement of Dr. Livingstone to determine the watershed of South-Eastern Africa, clxii.—his appointment as H.M.'s Consul in the interior; his plans; Du Chaillu's expedition from the west coast, clxiii.—Gerhard Rohlfs' labours in North Africa.

New Publications. Vambéry's Account of his Travels in Central Asia, clxiv.—Captain Spratt's Travels and Researches in the Island of Crete, clxv.—Dr. Livingstone's 'The Zambesi and its Tributaries,' clxvi.—'Frost and Fire,' by Mr. J. F. Campbell of Islay, clxvii.

Conclusion, clxx.—Résumé of work still left for geographers.

P.S.—Lieut.-Col. Pelly's return from the Persian Gulf, clxxxiii.—publication of Mr. W. G. Palgrave's 'Journal and Residence in Central and Eastern Arabia.'

Note on the Boundaries of Russia and Northern Turkistan, clxxxiv.

Intelligence received of Mr. Samuel Baker's return to Khartum, and his discovery of the Albert Nyanza.

ADDRESS FOR 1866.

- By Sir RODERICK I. MURCHISON, K.C.B., President .. Vol. XXXVI. p. cxviii.
- Obituary Notices*, cxix.—Viscount PALMERSTON. Rev. Dr. W. WHEWELL, cxix.—Admiral WILLIAM HENRY SMYTH, C.B., cxix.—his services to the Society, cxix.—Sir WILLIAM JACKSON HOOKER, cxix.—Sir JOHN RICHARDSON, C.B. cxix.—his Arctic explorations, cxix.—Dr. HENRY BARTH, cxix.—his services to geography, cxix.—JOHN GEORGE FORCHHAMMER, cxix.—NILS NORDENSKIÖLD, cxix.—Baron CHARLES CLAUS VON DER DECKEN, cxix.—his labours in Africa, cxl.—JACOB SWART, cxli.—Capt. LOUIS ISIDORE DUPEREY, cxlii.—his explorations in South America and Oceania. Admiral DON EDUARDO CARRASCO. Professor KUPFFER, cxliv.—Earl of DONOUGHMORE, cxlv.—Lord MONTEAGLE. Dr. JOHN LEE. Dr. THOMAS HODGKIN, cxlv.—GEORGE RENNIE. Dr. WILLIAM FREEMAN DANIELL, cxlv.—Commodore CRACROFT, C.B., cxlv.—Mr. BENJAMIN OLIVEIRA's Bequest to the Society, cxlix.
- Admiralty Surveys*. Increased interest of naval officers in geographical and hydrographical subjects. *Coasts of the United Kingdom*, progress of various surveys, cl.—*Foreign Surveys*, work in the Mediterranean. *China and Japan*, cli.—surveys in Northern China, Formosa, &c. *Colonial Surveys*.—*Nova Scotia*, completion of coast surveys by Commander Scott. *Newfoundland*, cli.—survey progressing. *West Indies*. *British Columbia*, whole of mainland as far north as Fitzhugh Sound in 51° 20' N. lat. now accurately laid down on charts. *South Africa*. *New South Wales*, cliii.—*Queensland*. *Victoria*, cliv.—*South Australia*, publication of charts by Hydrographic Office; chart of the Southern Hemisphere on the Polar Projection, illustrative of the ice-drift during different seasons; proposed re-survey of Strait of Magellan and inland channels, clvi.
- Meteorology*. Report of committee on questions relating to the Meteorological Department of the Board of Trade.
- New Publications*, clviii.—Pauthier's 'Marco Polo,' clix.—Bastian's work on Eastern Asia; Oliver's work on Madagascar; Baines' Views of the Victoria Falls; new edition of Fullarton's 'Imperial Gazetteer of England and Wales'; supplement to Blackie's 'Imperial Gazetteer'; Findlay's 'Sailing Directions for the Indian Ocean,' clx.
- Marco Polo and Mediæval Travellers in China*. M. Pauthier's work.
- Europe*, clxi.—eruption near Santorino, in the Ægean Sea. *Switzerland*, clxiv.—completion of the great Federal topographical map, clxv.—Ziegler's hypsoetrical map of Switzerland. *Spain*, Don Pedro Antonio de Mesa's physical and hydrographical account of the Basin of the Ebro.
- Asia*, clxvi.—*Researches of Russian Geographers*. Prince Krapotkin's journey from the River Argun to Merghen, in Chinese Tartary, and thence to Blagovestchensk on the Amur; researches in Manchuria; Struve's determination of ten astronomical points in Central Asia and on new Russian boundary; Lopatine's exploration near the mouth of the Yenisei, clxvii.—Col. Heinz's memoir on the Dungans of Western China, clxviii.
- Region of Central Asia between the Russian Frontiers and British India*, clxix.—curious MS. narrative of travels in the Pamirs; criticism and remarks by Lord Strangford, Sir H. Rawlinson, and M. Khanikof; Capt. Montgomerie's account of country between the Karakoram Pass and Yarkand, clxxi.
- Great Trigonometrical Survey of India*, clxxii.—work completed and remaining to be done, clxxiii.

Chinchona Cultivation in British India, clxxvi.—Mr. C. R. Markham's report on its present condition, clxxvii.

Japan, clxxviii.—Commander Forbes's excursions in the interior of the Island of Yesso; Professor Huxley's account of the peculiarities of Aino skulls, clxxxix.

Australia. Important advances made in Queensland, and opening out of Northern or Inter-tropical Australia; endeavours to discover Leichhardt's line of route in the interior, clxxxv.—subscriptions by the Society; donation by the Queen.

South America. Mr. Chandless' exploration of the River Purús; Mr. Markham's journey, clxxxvi.—Saraflm Salgado's diary of an expedition up the Purús, obtained by Mr. Spruce, clxxxvii.—the River Madre de Dios, clxxxviii.—Mr. Chandless' exploration of the River Aquiry, tributary of the Purús.

United States of Columbia. General Mosquera's description of them, accompanied by atlas of maps corrected from surveys by Codazzi and others, clxxxix.

Topographical Survey of Buenos Ayres.

North Polar Expedition.—*Greenland*. Admiralty unwilling to listen to Society's appeal; similar failure in Germany; Mr. Edward Whymper's proposed exploration of northern coast-line and interior of Greenland, &c.

Africa. Mr. S. W. Baker's discovery of the Albert Nyanza; his account of his explorations; his verification of the positions determined by Speke's astronomical observations, exci.—his definition of the water-basin of the Luta Nzige; M. du Chaillu's unsuccessful attempt to reach Central Africa from the west coast, exciii.—results of his journey; testimonial voted to him by the Council; Mr. R. B. N. Walker's expedition to the country northward of M. du Chaillu's route; M. Ladislaus Magyar's journeys, exciv.—fears respecting his fate; Livingstone's projected journey to the Rovuma River and Lakes Nyassa and Tanganyika, excv.—Dr. Kirk appointed Government medical officer at Zanzibar.

Conclusion, excvi.

ADDRESS FOR 1867.

By Sir RODERICK I. MURCHISON, K.C.B., President .. Vol. XXXVII. p. cxv.

Obituary Notices. Sir GEORGE EVEREST; his services in connection with the Great Trigonometrical Survey of India, cxvi.—Professor HENRY ROGERS, cxviii.—Rev. GEORGE CECIL RENOUARD; Sir STUART DONALDSON, cxix.

Admiralty Surveys, cxx.—*Coasts of the United Kingdom*. Culver's work on the East Coast, cxxi.—*Channel Islands*. Portsmouth. *Foreign Surveys*, cxxii.—*Mediterranean*. Capt. Shortland's Survey of the Malta Channel. *China Sea*. *North China and Japan*. Work of Commanders Brooker and Bullock. *Strait of Magellan*, cxxiii.—commencement of Capt. Mayne's Survey. *West Indies*. *Bermuda*. Commander Chimmo's work. *Newfoundland*, cxxiv.—Mr. Kerr's services in connection with the Atlantic Cable of 1866. *British Columbia*. *Cape of Good Hope*. *Colonial Surveys*. *Victoria*. *New South Wales*, cxxv.—*Queensland*. Commander Nares' activity. *South Australia*. Charts, &c., published in 1866 by the Hydrographic Office, cxxvi.

Continental Publications.

Grundemann's Missionary Atlas, cxxvii.

Africa. Dr. Livingstone. Strong grounds for disbelieving report of his death; surmises as to connection of Lake Tanganyika with the Albert Nyanza, cxxviii.—Mr. Findlay's memoir on this subject; boat expedition to be despatched to

north end of Lake Nyassa to inquire into Livingstone's fate; Mr. E. D. Young to be placed in command, cxxix. *Senegal*, cxxx.—expedition sent by Col. Faidherbe to fix geographical positions between Upper Senegal and Niger; work done there by Lieutenant Mage; French Geographical Society's gold medal awarded to him, cxxxi.

Asia. Russian activity in north part of Central Asia; publication of Col. Yule's 'Cathay and the Way Thither'; intercourse with the east in mediæval and modern times; geographical operations of Admiral Boutakof, cxxxiii.—his work on the Aral Sea; his exploration of the Jaxartes, cxxxiv.—observations on the Aralo-Caspian basin; Semenov's explorations of the Tien Shan, the great axial range of Central Asia, cxlvi.—preparation by Russians of maps of unknown tracts, cxlvii.—Bokhara, cxlviii.—Struve's map of Turkistan.

Northern Frontiers of British India. Mr. W. H. Johnson's journey from Leh, in Ladakh, to Ilchi, in Chinese Tartary; the trade and products of the region, cxlix.

Tibet. Capt. Godwin-Austen's survey of Lake Pangong.

Site for a New Indian Capital. The Hon. George Campbell's paper suggesting Nassick, 120 miles from Bombay, as a suitable locality, cli.

Delta of the Indus. Col. Tremenheere's paper on the physical geography of the Lower Indus.

Kurdistan, clii.—Mr. Consul Taylor's geographical and archæological work.

Egypt, cliii.—*The Great Pyramid*. Prof. Piazzi Smyth's 'Life and Work of the Great Pyramid'; his demonstration of its proportions and constructive arrangements, cliv.

South America. Mr. Chandless' exploration of the Purús and Aquiry, clv.—Señor Raimondi's labours in the province of Carabaya; Mr. Chandless' intended ascent of the Rivers Madeira and Beni, clvi.—opening up of great fluvial highways between the Peruvian provinces of the Andes and the main stream of the Amazons.

Australasia. Death of Mr. D. McIntyre, leader of the Leichhardt Search Expedition; continuation of search, clvii.—local explorations in Australian Colonies in search of lands suitable for pasture or settlement, clvii.

New Zealand, clviii.—Dr. Haast's exploration of Middle Island mountain range; passes discovered.

Conclusion.

ADDRESS FOR 1868.

By Sir R. I. MURCHISON, Bart., K.C.B., President .. Vol. XXXVIII. p. cxxxiii.

Continued prosperity of the Society; difficulties as to providing sitting room at meetings.

Obituary Notices, cxxxiv.—Mr. WILLIAM JOHN HAMILTON; received Founder's Medal in 1843 for his researches in Asia Minor, cxxxv.—President of the Society in 1837, 1841, 1842, and 1847, cxxxvi.—Earl of Rosse, cxxxvii.—his great services to science; Admiral Lord COLCHESTER, cxl.—accompanied Lord Amherst's Embassy through the interior of China to Canton; Rt. Hon. Sir GEORGE CLERK, cxlii.—Capt. JAMES MANGLES, R.N., cxliii.—author of several geographical treatises; Mr. ASHURST MAJENDIE; Mr. JOHN MINET LAURIE; Rev. PIERCE BUTLER, cxliv.—his connection with the survey of the

- Sinai Peninsula; Sir CHARLES LEMON, Bart., cxlvi.—Mr. JOHN CRAWFURD, F.R.S., cxlviii.—his services to Ethnology, Natural History, and Geography, cxlix.
- Admiralty Surveys*, eliii.—*West Coast of England*. *East Coast of England*. *Portsmouth*, eliv.—*Channel Islands*. *Foreign Surveys*. *Mediterranean*; Capt. Shortland's work; *Strait of Magellan*, elv.—great progress made in the survey, and changes discovered; *China Sea*; dangerous coral reefs examined; *North China and Japan*; Commander Brooker's work on the Formosa coast; proposed lighting of China coast, elvi.—Commander Bullock's work in Japan. *West Indies*; Parson's Chart of Montserrat. *Newfoundland*, elvii.—progress of the coast survey. *Bermudas*, elviii.—*British Columbia*. *Cape of Good Hope*. *Australia*. *Victoria*. *New South Wales*. *South Australia*, elix.—*Queensland*. *Red Sea*; Capt. Bradshaw's work between Aden and Annesley Bay. Publication and revision of charts, &c.
- New Publications*. Society's 'Journal,' vol. 37; Major's 'Life of Prince Henry,' clx.—sketch of its contents, clxi.—Keith Johnston's New Atlases, clxii.—Mr. Johnston's services in popularising the study of geography; Chapman's 'Travels in South Africa,' clxiii.—Millingen's 'Observations in Armenia and Kurdistan'; Cornelissen's 'Treatise on the Temperature of the Sea off the Cape of Good Hope,' clxiv.—Jordan's 'Vis Inertiæ in the Ocean.'
- Europe*, clxv.—*Spain*; Don Francisco Coello's account of survey operations. *Switzerland*, clxvi.—measurement of the glaciers of South-Western Valais; prize to encourage investigations concerning the warm southerly wind or Föhn.
- Arctic Researches*. Expedition despatched by Dr. Petermann, clxvii.—French expedition; American researches, clxviii.—Capt. Long's sketch of the progress of Arctic discovery from the days of Hudson and Frobisher; routes suggested by him, clxix.—Capt. David Gray's proposed way of reaching the North Pole, clxx.—preparations for Swedish Expedition, clxxi.
- British North America*. Dr. Cheadle's forecast of the future of the North American Colonies.
- Central America*, clxxii.—*Isthmus of Darien*; Collinson's preliminary survey; M. Lucien de Puydt's explorations; Admiral Davis's work on 'Interoceanic Transit,' clxxiii.
- South America*. Peruvian explorations on the Amazons; account by Don M. F. Paz Soldan of a survey of the land-route between the head of the navigation of the Ucayali and Pachitea Rivers and the City of Huanuco; exploration of the River Javari, clxxiv.—Capt. Vargas' exploration of the River Morona; gold-washing by Indians; Prof. Raimondi's explorations of the Andean Valleys of Central Peru, clxxv.—his examination of the River Pulperia, an affluent of the Apurimac; Capt. Burton's journey through the interior of Brazil.
- Australia*. Sholl's examination of country between Nickol Bay and the Tropic of Capricorn; identity of the Ashburton with the Curlew River; Captain Cadell's discovery of rivers in the northern territory.
- Central Asia and Western China*, clxxvi.—Mahometan rebellion; consequent stoppage of trade between British Burmah and China, clxxvii.—ascendancy of rebels in Eastern Turkistan; recommendation of Council that Lieut. Hayward be allowed to explore regions north of the Hindu Kush.
- British Burmah*, clxxviii.—account by the late Mr. John Crawford of the present state of the province; his objections to a railway from Rangoon to Chinese province of Yunnan, clxxx.—projected railroad in British Burmah.

Tibet and Lhasa. Capt. Montgomerie's proposal to educate intelligent natives for exploration to the northward approved by Government; good results; important explorations by the Pundit, clxxxi.—gold watch awarded to him, clxxxii.

Coal and Gold of South-Eastern Africa. Coal in Natal; gold discoveries to the north-west of the Transvaal territory by Mr. Carl Mauch; brief account of his work; supposed site of Ophir, clxxxiv.—ebony trees on the River Rovuma, clxxxvi.

Abyssinia, clxxxvii.—Mr. Clements Markham's account of former Portuguese expeditions; recent explorations; Mr. Markham's work as geographer of the British Military Expedition, clxxxviii.—geographical information collected and disseminated by the Topographical Department of the War Office, clxxxix.

Dependence of Geography on Geology.—*The oldest comparative Geography.*

Livingstone's Progress in South Africa, xciv.—rumour of his death proved by Mr. E. D. Young to be untrue; success of the boat expedition; speculations as to Livingstone's future course, xciv.—Sir Samuel Baker's views, cxvi.

Conclusion, cxviii.

ADDRESS FOR 1869.

By Sir RODERICK I. MURCHISON, Bart., K.C.B., President .. Vol. XXXIX. p. cxxxv.

Obituary Notices, cxxxvi.—Lord STRANGFORD; his passion for languages, cxxxvii.—his great geographical knowledge, cxxxviii.—CHARLES FREDERICK P. VON MARTIUS, cxxxix.—his explorations in Brazil, cxl.—his services to botany; M. DE LA ROQUETTE, cxli.—his labours in connection with the French Geographical Society; Sir JAMES BROOKE, Bart., K.C.B., Rajah of Sarawak, cxlii.—awarded a gold medal for his work in Borneo, cxliii.—Sir C. WENTWORTH DILKE, Bart., cxlv.—Mr. T. H. BROOKING, cxlvi.—Sir JOHN P. BOILEAU, Bart.; Mr. JOHN DICKINSON, F.S.A.; Sir EDWARD CUNARD, Bart., cxlvii.—Rev. S. W. KING; Dr. H. NORTON SHAW; his services as Acting Secretary of the Society; Sir JOHN V. P. JOHNSTONE, Bart., cxlviii.

Admiralty Surveys, cl.—important researches of Dr. Carpenter and Prof. Wyville Thomson on the subject of sea-bottoms and temperature at considerable depths between the Hebrides and Faroe Isles.

Home Coasts; Portsmouth Harbour and Spithead, cli.—*Channel Islands;* expected close of survey; *Mediterranean;* Nares' survey for submarine cable between Malta and Alexandria, clii.—*Strait of Magellan;* Capt. R. C. Mayne's work in the *Nassau;* *North China and Japan,* cliii.—progress on Japanese coasts; resurvey of entrance of River Min, China coast, cliv.—*The China Sea Survey;* Reed's work in the *Rifleman,* clv.—observation of total eclipse of the sun from west coast of Borneo; Spanish survey of Philippine Isles, clvi.—*West Indies.*

Newfoundland. Kerr's work on the east coast.

British Columbia.

Cape of Good Hope, clvii.

Australia. New South Wales; approaching completion of survey; *Victoria;* *South Australia,* clviii.—*Queensland;* good progress made.

Auxiliary Surveys. Commander Chimmo's work.

H.M.S. Serpent. Commander Bullock's deep-sea soundings for submarine cable between Australia and Java, clix.—also from Penang across Bay of Bengal to Point de Galle.

Summary. Publication of sailing directions, charts, &c.

New Publications. Tchihatcheff's 'Asie Mineure'; Whymper's 'Travels in Alaska and on the River Yukon,' clxi.—Delesse's 'Carte lithologique des Mers de France'; Neubauer's 'Geography of the Talmud,' clxii.—Wallace's 'Malay Archipelago'; Bickmore's 'Travels in the East Indian Archipelago,' clxv.—Keith Johnston's 'Elementary Atlases,' clxvi.—Fullarton's 'Hand Atlas,' clxvii.

Arctic Researches. Petermann's expedition; Swedish expedition; Founder's Medal awarded to M. Nordenskiöld, clxviii.—departure of Lamont's expedition, clxix.—discovery of remains of fossil plants of a warm climate in subsoil of Polar Regions, clxx.

Antarctic Ocean. Necessity of preparatory expeditions with a view to the observations of the transits of Venus in 1874 and 1882, clxxi.

Europe. Switzerland, clxxii.—Facsimiles of original surveys of the country to be published.

Italy. Italian Geographical Society; papers published in their 'Journal,' clxxiii.—Beccari's sketches of his journeys in Borneo; results of voyage of the *Magenta*.

Africa, clxxiv.—Livingstone's route; no intelligence received; Duarto Lopez' map of Africa (1591), clxxv.

South African Gold Fields, clxxvi.

Asia. Central Asia, clxxvii.—Russian surveys in the Tien Shan; geographical surveys by the Pundits of South-western Tibet; Shaw's journey into the Yarkand territory; trade routes between Turkistan and India, clxxviii.—maps; new information in Col. Walker's map of Turkistan, clxxix.—Col. Yule's observations.

Burmah and China, clxxxi.—*The Bhamo Expedition.* Capt. Sladen's arrival at Momein, on Yünnan frontier; inability to proceed.

Expedition of Mr. T. T. Cooper, clxxxii.—Unsuccessful attempts to reach Assam from Szechuen, and Burmah through Yünnan; projected expedition from India to Western China.

French Exploration of the Great Cambodia River and of Yünnan, clxxxiii.—Sketch of journey of Capt. de Lagrée and Lieut. Francis Garnier; death of former, clxxxiv.—great results achieved, clxxxv.

South America. Examination of River Juruá completed by Mr. Chandless; Peruvian Government explorations; Raimondi's work; Nystrom's work east of the Andes in country explored by Markham in 1853, clxxvi.—new edition of atlas of Republic of Peru; Bada's descent of the rivers Mamoré and Madeira; maps received from Brazil, clxxxvii.—publication of Capt. Burton's account of his Brazilian explorations; plan of Buenos Ayres, presented by Don Saturnino Salas.

The Former and Present Physical Changes of the Surface of the Earth compared.

Conclusion, cxci.

Postscript, cxci.—*Discovery of the True Mouth of the Limpopo or Bembe River;* accomplished by Mr. St. Vincent Erskine; his observations and map of country from north of Natal to the Limpopo.

ADDRESS FOR 1870.

By Sir RODERICK I. MURCHISON, Bart., K.C.B., President.. Vol. XL. p. cxxxiii.

Obituary Notices. Capt. CHARLES STURT; his great services as an explorer in Australia, cxxxiv.—Right Hon. HENRY UNWIN ADDINGTON, cxxxvii.—Lord BROUGHTON, G.C.B., cxxxix.—one of the founders of the Society; Admiral of the Fleet Sir WILLIAM BOWLES, K.C.B., cxl.—M. ADRIEN BERBRUGGER, cxlii.—Mr. J. W. S. WYLLIE; Earl of DERBY, K.G., cxliii.—RALPH WILLIAM GREY, cxliv.—JOHN HOGG; one of the Secretaries of the Society 1849–50; his geographical and other works, cxlv.—Dr. PETER MARK ROGET, F.R.S.; his ‘Thesaurus of English Words and Phrases’; ARTHUR KETT BARCLAY; SAMUEL S. HILL; Mr. CORNELIUS GRINNELL, cxlvi.—Colonel GEORGE GAWLER, K.H., cxlvii.—Mr. JAMES MACQUEEN; his services to African Geography; Mr. GEORGE PEABODY, cxlix.

Admiralty Surveys. Deep-sea exploration in the *Porcupine*, by Dr. Carpenter, Prof. Wyville Thomson, and Mr. Gwynn Jeffreys.

Home Coasts. Second vessel equipped; publication of complete charts of Channel Islands, cl.—*Pertsmouth*; *Mediterranean*; Capt. Nares’ work on the coast of Tunis, in the Malta Channel, &c.; *Strait of Magellan*; result of Capt. Mayne’s work; *North China and Japan*, cli.—surveying in the Inland Sea; portion of the Upper Yang-tze explored and mapped; Commander H. C. St. John appointed to the *Sylvia*. *China Sea*; proposed extension of the survey, clii.—*Newfoundland*; progress of survey; assistance to *Great Eastern* in laying French Atlantic cable. *West Indies*; survey removed to British Guayana. *British Columbia*; progress of work; expected completion of survey. *Cape of Good Hope*; surveying on west coast. *South Australia*. Deaths of Capt. J. Hutchison and Lieut. Guy, cliii.—*Victoria*; *New South Wales*; deep-sea sounding, cliv.—*Queensland*; favourable progress made. *West Coast of Africa*. Survey of mouths of rivers.

Summary. Publication of charts, &c.; retirement of Commanders Edward Dunster-ville and John Burdwood, clv.

New Publications. ‘Journal’ of the Society, vol. 39; Petermann’s ‘Geographische Mittheilungen,’ clvi.—Keith Johnston’s last works, clvii.; Kohl’s ‘History of the Discovery of Maine’; his work undertaken at the suggestion of Mr. R. H. Major, Secretary R.G.S.; Marcoy’s ‘Voyage à travers l’Amérique du Sud,’ clviii.—Millingen’s ‘Wild Life among the Kurds,’ clix.—contains geographical information of many little-known parts of Kurdistan.

Italian Geographical Society. Death of Count Lavradio alluded to by its President.

The Canal of Suez, clx.—Society represented at the opening by Lord Houghton; Report on the Canal by Capt. Richards, the Hydrographer, and Colonel Clarke, R.E.

Central Asia. Advances in geographical knowledge of country north-west of India and Eastern Turkistan; Mr. Shaw’s residence in Kashgar, clxi.—meeting of Messrs. Shaw and Hayward on the Himalayan frontier; Mr. Shaw’s return to England, clxii.—successful explorations by Mr. Hayward; his zeal and courage commended; his present plans; the Russian Governor-General of Turkistan ordered to assist him in case of need; Mr. Douglas Forsyth’s labours and their results; Sir Henry Rawlinson’s remarks on exploration of north-western frontiers of India, clxiv.—Chinese power in Eastern Turkistan.

Russians in Central Asia, clxv.—Their extension of geographical knowledge throughout Western Turkistan; Baron Kaulbars’ survey in the central part of the Tien Shan; Scobélard’s topographical surveys in the Zarafshan district;

other surveys and map of Russian Turkistan, clxvi.—ancient ruins in (Lake) Issyk-kul; Baron Osten Sacken's memoir on mountainous region between Turkistan and the Russian boundary near Kashgar, translated by Mr. Delmar Morgan.

Western Asia, clxvii.—Consul Taylor's journey to the sources of the Euphrates.

Australia, clxviii.—Forrest's journey in the interior of Western Australia; well-grassed land found in North Australia; Sir C. Nicholson's comparative sketch of the rise and progress of the Australian colonies; remarks on New Guinea, clxix.—Capt. Delargy well received by the natives; suggestion of Sir C. Nicholson for the improvement of our geographical knowledge of the island.

South America, clxx.—Mr. Chandless' account of his exploration of River Juruá; his attempted exploration of the River Beni; curious feature in the physical geography of the interior of South America brought to light by his researches and those of the Peruvian and Brazilian Boundary Commission; explorations and surveys in other parts of South America; part of tropical South America explored by scientific expedition, under the auspices of the Smithsonian Institution, clxxi.—map of central provinces of Chili in course of preparation; Dr. Philippi's explorations in little-known parts of Chili; British naval surveys at southern extremity of the continent.

Arctic and Antarctic Researches, clxxii.—Failure of Mr. Lamont's expedition to Spitzbergen; Capt. Hamilton's memoir on Antarctic researches; Morrell's narrative of journey in those regions not considered authentic.

A few more words on Physical Geography as dependent on Geology, clxxiii.—Remarks on Mr. Robert Brown's paper on the formation of fjords, cañons, and benches in North America.

Africa, clxxv.—*Great Salt Desert at the Eastern Foot of the Abyssinian Alps*. Mr. Werner Munzinger's exploration from Hanfila, on the Red Sea, to the Abyssinian highlands; basin of salt below the level of the sea; Mr. Munzinger's services to the British army.

Dr. Livingstone. No certain or recent news of him, but no cause for despondency as to his safety; a relieving party from Zanzibar prevented by cholera from reaching him, clxxvi.—hopes entertained of communications being now restored with Ujiji; departure of Sir Samuel Baker's expedition from Khartum in February; small work by Mr. Keith Johnston, jun., referred to; remarks on various hypotheses respecting the rivers and lakes of East Central Africa.

Conclusion.

INDEX

TO THE

FOURTH TEN VOLUMES OF THE JOURNAL OF THE ROYAL
GEOGRAPHICAL SOCIETY.

AARED.

A.

- AARED, Province of, Arabia, xxxiv. 112
et seq.
 ABACAXIS River, Brazil, xl. 419, 422–425, 427, 430.
